

I listen to K-LOVE at 94.3FM every day. This station serves me as a resident of a local community although it is a nationwide station. If this station was displaced by an LPFM it would be devastating to me personally and to the Chicagoland community that it serves. This station is like no other because everyone nationwide is listening to the same encouraging words and music. This station serves the public interest by offering family-friendly music. I would be lost without my KLOVE! Thanks for listening.
